

SHELVING

Aluminium

Aluminium Full Shelving System

Key features

- Shelves are easy to adjust and have easy to clean removable slats that actually fit in your dishwasher or sink. Slats are manufactured from polyethylene.
- Posts/traverses are manufactured from high strength anodised aluminium. Very strong and resistant to corrosion.
- Meets NSF & NF international hygiene standards.
- Quick & easy assembly, installation can be completed by one person.

PLATE STACKER

- Designed to save space in your kitchen
- Can stack all bowls up to 5cm high—round, square, rectangular and oval
- Settings can be easily adjusted manually to suit your plate types
- Stores a large number of plates in a small area
- Easily cleaned by either a high-pressure cleaner or a brush and warm soapy water
- When not in use, can be easily stored away using minimal space

Plate Stacker Floor Model

HG29

- Holds 84 plates
- Stands 189cm high
- Collapsible for compact storage
- Ideal for catering and mobile work
- A great way for providing improved service while lowering the risk of breaking plates
